

## #01 WWS Perl Protector

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

The WWS Perl Protector allows you to encrypt your Perl source code & Perl Modules making its very difficult to modify or steal. You can set domain name where you only want your scripts to run, set expiry time and url, where you want your customers to be forwarded once the encrypted scripts is expired.

For more details, please visit <http://scripts.goclix.com/01-www-perl-protector-620>
