1st Simple HTML Editor

Address {value_address}

Contact Person {value_contact_person}

Mobile Number {value_mobile_number}

Email {value_email}

1st Simple HTML Editor is a text-based HTML editor, which allows you to quickly change your Website pages, containing same blocks of repeating codes. You only need to edit the repeating block once, and then the changes automatically apply to all of the necessary blocks on all pages. This editor is easy to use, has an intuitively comprehensible interface and syntax highlighting.
