This is a pure css3 html5 accordion. It only takes a few seconds for you to create custom accordion. There are 6 different animations that can be use for your accordion list. All animations uses 3D rotation effects. Accordion works smoothly in iOS devices such as iPhone and iPad. Browsers that do not support 3D rotating will still show the accordion but with no 3d animation effect. This item have included 42 Predefined colors for you to choose in your labels. Meanwhile I've included documentation for ease of work .
