

4CM_phpContact

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

4CM_phpContact is a very simple script for having a "contact us" page at your site. It allows you to add as many fields as you'd like. It will send you the results of the submission, as well as sending a confirmation email to the user who submitted the data. It is very easy to install. It includes a small instructions for setting up, and all the needed files.
