Mobile Number	{value_mobile_number}
Email	{value_email}

A QuickEStore is the fastest and easiest way to put a storefront on your website. A QuickEStore features eight one-click storefront wizards, categories, sub-categories, product images & thumbnails, flexible shipping options (including integrated UPS rates), product attributes, and optional integration with most major credit card processors, including PayPal! One of the most popular shopping cart programs out there, it also includes sales and inventory reporting, and built-in customer relationship management tools. Still just \$99.
