Set up categories that are searchable, indexed and easily cross-referenced. Create unlimited data fields of any type then decide how you would like them displayed. Each category of data is independently configurable with its own fields, text and templates. You are not stuck with a one size fits all solution whether it's products for sale, documentation, FAQs, or any type-structured data, Aardvark Catalog can handle it. Shares an integrated backend - account management, billing, advertising, templates and administration - with over 25 other pluggable software modules. You can add grow your site as your needs expand all using a single integrated suite. No more multiple logins and inconsistencies.
