Absolut Engine is an advanced news publishing system. Strong support for Search Engine Optimization / SEO / clean URLs. It features 3 layer access (admin/chief/editor), article posting, editing and deleting, surveys and discussions. Absolut Engine includes a powerful image managing tool for uploading, deleting and listing the uploaded images. It also includes article discussion manager and file upload manager to add files easily to articles. It is easily expandable, fully configurable and easy to use even for inexperienced users. Requires MySQL. An online demo available on the author's site.
