

# Active Toolbar

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Active Toolbar is the perfect control to create toolbars in your web application. The toolbars supports drag&drop and are dockables. Tools includes buttons, DHTML drop downs, checkbox, radio button, textbox and more... The web is becoming a large application. Static pages are being replaced by dynamic pages driven by databases. The content is becoming updateable, and more interactivity is proposed to the web site visitors. ActiveToolbar allows you to create powerful toolbars that look like windows, but for your webforms! Drag & drop, docking, DHTML drop down lists, DHTML popups, ... all the features you need to build powerful toolbars.
