ActiveUpdate

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This package allows developers and system administrators alike to add automatic updating to their own software packages. An Administrator could plug ActiveUpdate into their scripts to keep their systems or users up to date. A CGI/PERL/VISUAL BASIC programmer could plug ActiveUpdate into their software packages to allow users an automatic or scheduled update functionality.
