

# Admin Log

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Admin log displays a list of all admin pages accessed in the Blog admin area. This is updated every time a page in the admin area is accessed. Information logged includes: admin page accessed, user and time of access. This is very useful if more than one person maintains your Blog, so you can see exactly who is accessing the admin pages, what they are doing, and when!
