

# Admin Pro Tools Email List Manager 2.5

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Enterprise Version now updated to 2.5.2 and includes new user access level options and double opt-in capabilities and more. Email List Manager 2.5 will handle all of your list subscription/un subscription tasks, HTML and Text Email message/campaign creation (no need for an external editor). Full management of your email list subscribers through thorough and customizable email bounce management. Management of bounced emails can be easily scheduled on your ColdFusion Server with one click. Enterprise level features including message broadcast scheduling, subscriber groups creation based on almost any criteria. Unlimited lists, unlimited administrators and administrator groups, auto responders, batch email broadcasting, click through tracking with user level tracking, personalization variables. Broadcast success logs and statistics graphs and much more
