Advance FAQ Management

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

FAQs or frequently asked questions are an effective way to improve customer experience and reduce customer related enquiries. FAQs allow your customers to self-serve themselves by getting answers to their questions on your website without having to contact you. FME's Advance FAQ Management v2 provides easy to manage FAQ module that enables you to create Categories/Topics for FAQ from the backend and then create FAQ under those topics. Extensive configuration options have been provided so that you can customise the behaviour and look of FAQ according to your needs.
