Make your search faster, smarter and relevant! Yes, this is possible now by configuring Advanced Search with Solr Extension in your e-store. Advanced search with Solr extension is a power-packed enterprise research platform having plethora of useful features to make the product search more relevant and faster. When two powerful platforms integrate – the results are unique! This is what we have tried to yield by integrating Magento with Solr – united two giants to simplify the product search if you own a large store with myriad of products range, making it cumbersome for your customers to search the products of their choice.
