Mobile Number	{value_mobile_number}
Email	{value_email}

The Advanced AJAX Cart Magento module allows customers to effortlessly add and remove products from their shopping cart without having to continuously click the "update" button. With each addition or deletion, only the shopping cart is refreshed. This immediate interaction allows users to continue shopping without waiting for pages to refresh. Best of all, it also works on the shopping cart page, enabling deletions and additions without page reloads. Advanced Features Compatible with custom theme having top mini cart box Support Fly-cart animation which enable fly effect to top cart or cart side bar of product Ajax enabled with custom block appear on the page or in sidebar Fully working with product custom options (or product configuration)
