<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Advanced HTML Optimizer is intended for HTML documents optimizing, resulting in shorter downloading / uploading time. Pages will appear in client's Internet browser in exactly the same way, but they will be about 20% smaller. Its main function is to save space on your web pages by removing unnecessary characters and tags. Though the saving percentage may seem small, load time savings is much higher as your client's Internet browser parses the pages more efficient.
