Email	{value_email}

This is a wonderful news reader which can be used embedded into another project (drag and drop onto the stage, copy the library items and the source files) or you can use it as it is. Includes Photoshop .psd design. The following variables can be customized in the xml : - the total width and height of the news box - the total radius for the corners - the first and second stroke size, the image stroke size - the html field width - the colors for the main background, the first and second stroke - the scrolling text box width and height - the mask's height for the scrolling box - the button height and the vertical distance between buttons for the scrolling box - button label for each news item (eg. Read More) and of course the url Enjoy this new release from OXYLUS Flash.
