|-----------------------|------------------------|
| Address | {value_address} |
| Contact Person | {value_contact_person} |
| Mobile Number | {value_mobile_number} |
| Email | {value_email} |

Affiliates module is an addon to system which can be used in several ways: as classifieds software, online inventory management script, business/community portal, yellow pages or even light content management software (CMS). Often ads, search engines and newsgroup posts did not bring enough traffic to assure an acceptable amount of sales. As soon as you start using affiliate program though, things can get much better and keep improving. Have sales force working for you! This module allows you to add affiliate program to your website. Your visitors can sign-up as affiliates and promote your products for a commission. You can define global affiliate commission value and also set it individually for each affiliate. Affiliates can be required to confirm email address before registration, you have option to approve each affiliate manually or automatically, you can enable/disable affiliate account at any time.
