

Ajax Rotating Includes script

| | |
|-----------------------|------------------------|
| Address | {value_address} |
| Contact Person | {value_contact_person} |
| Mobile Number | {value_mobile_number} |
| Email | {value_email} |

This Ajax script lets you enter a list of external pages for the script to choose and selectively include one onto the current page. Think of it as SSI client side. You can choose to display a different file for each day of the week, month, or randomly.
