

# Ajax Rotating Includes script

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This Ajax script lets you enter a list of external pages for the script to choose and selectively include one onto the current page. Think of it as SSI client side. You can choose to display a different file for each day of the week, month, or randomly.
