Allayers TextPNG - storing text in images

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script demonstrates pixel based operations in PHP. It stores and retrieves text (like HTML) in truecolor PNG images. And it's pretty fast at it too. A demo is available as well as full source. I'd be very interested in knowing if it proves to be useful in any way.
