

# Always-visible combo box

|                       |                        |
|-----------------------|------------------------|
| <b>Address</b>        | {value_address}        |
| <b>Contact Person</b> | {value_contact_person} |
| <b>Mobile Number</b>  | {value_mobile_number}  |
| <b>Email</b>          | {value_email}          |

A twist to the good old JavaScript combo box menu, this script renders one that's always visible on the visitor's lower right screen. Take site navigation to the next level! Just updated for NS6+ functionality, plus ability to specify link target.
