Amailer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Amailer is a PHP/MYSQL script, with amailer you can send anonymous emails. When you send an email the email gets logged, so you can see who is sending what. You can also edit your amailers preferences in the admin area. When you email a person you can either send a PLAIN text or HTML texed email. You can send the same email to as many people you want at the same time. Amailer requires: Mysql/PHP4 or higer PHP4: Needs GLOBAL TO BE ON!
