

# Amazon aStore Search Box

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Amazon aStore Search Box is a very simple, portable search box that lets visitors search for products in a specific category in your Amazon aStore. Just customize with your aStore URL and relevant category node number. Then add the script to your aStore page and the search box to any web page. After clicking the search button your aStore will open inside your web site displaying the products that matched the search.
