

# Amnuts MadLibs

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This class allows you to easily add a madlibs game to your website. You can load the madlib stories in via the file system or a database. The stories are chosen at random, and a form will be shown to the user to fill in their own words. You can use a few css styles to control how things look (madlibTable, madlibTitle, madlibStory, and madlibWord).
