

Animated Popup Window

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Open a popup window with a nice animation effect, from the top left corner of the display, and gradually taking a user's customizable size. This script is available as Dreamweaver extension; you can use it with single clicks from Dreamweaver. You don't need programming skills for this component. You can configure the window features (menus, scrollbars ...), the window size, and the address of the page to load.
