

Answers 2000 PHP Click/Counter Tracker

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Powerful counting and tracking script. Create as many as trackers as you want. Silently track visits to websites. Record user IP address information. Measure conversion rates and do split tests on sales letters and squeeze pages. Maximize the effectiveness and conversion rates of your marketing campaigns. Split-testing features are fully compatible with ClickBank and most other e-commerce systems.
