Appin5minutes helps to create mobile applications for local businesses in a few simple clicks. No skills in programming or design are required. No skills in programming or design are required. Tool's dashboard and its widgets are easy to use and provide you with all necessary steps to build your own application. Widgets allow to fill in the contents and add unique design to your app: - publish your service, add description, prices, coupons and customers' reviews - share links on social networks and get more followers - use push notifications to notify your clients - add possibility for customers to order service and let them choose time for this - apply background design (choose from the list or use own) and logo to your service Appin5minutes is a white-label solution so there will be no tool mentioning in your app. Once apps are configured they are sent to AppStore and Google Play to be reviewed and published.
