<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Argala Counter is a simple graphical counter program that works with SSI(Server Side Include). You only place one SSI tag on your page. If you would like to have your own graphical counter shown on your web pages, you should create 10 numeric graphic GIF files. When a visitor visits your web page, the program updates the count file and displays the count. The program also logs your visitor's access.
