

# ArrowChat - Facebook Style jQuery Chat Script

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

ArrowChat is a jQuery live chat software that uses PHP and MySQL. It is placed at the bottom of your website similar to Facebook Chat. The chat integrates right into your existing website using your existing usernames, avatars, profile links, and more. Super easy installation for both supported integrations (like vBulletin, WordPress, phpBB, and more) or custom websites (a single integration file). Some of the features of ArrowChat include: Video Chat, Chat Rooms, Notifications, Applications, Full Admin Panel, Announcements, ArrowChat Store, Popout Chat, Themes, User Options, Real-time Status, Push Server, Mobile Support, Guest Chat, and much, much more. We're constantly giving ArrowChat free software updates, so stop by our site for the latest on ArrowChat.
