AEES is a Perl/MySQL-based unique and feature rich script that allows you to run your own exit exchange service. Full control over layout, functions and stats via HTML templates and an extensive admin control panel. Ecommerce enabled (Clickbank, Paypal, 2checkout, E-Gold etc). Fraud Protection, Advanced Rotation Features, Referral System included. PHP Add-On now available. Also features: categories, visitor IP check, create accounts with different ratios, detailed global and user stats, set referral levels, set referral points, and much more.
