

ASP Download

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The ASP Download Management is a download management script to manage the downloads on your site. The admin can add and edit downloads, as well as view download counts for each file. The script uses a password protected area to add/edit/delete downloads. Also allow for multiple users to post downloads.
