ASP_FAX

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

ASP_FAX is an Active Server Page (ASP) Custom Script that allows ASP developers to easily send faxes and alphanumeric pages from their ASP powered Web pages. The ASP_FAX Custom Script accomplishes this by taking data from ASP and passing it to a ProtoFax® Server. ProtoFax server is a separate server application that sends faxes and alphanumeric pages. ProtoFax must be installed on your network.
