

# ASP Form Captcha

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Allows to generate captcha images from ASP without requiring any additional installation on the web server. No ActiveX components required, this is build with ASP standard code. You can configure the captcha's look & feel to match your web site design. No hand coding required. All the process is made from the Dreamweaver design mode. The protection code is inserted automatically into your web page. It works on any web server with ASP support.
