ASP.NET Maker is a powerful automation tool that can quickly generate an ASP.NET Core 5 MVC web application in C# from a Microsoft Access, SQL Server, MySQL, PostgreSQL or Oracle database. Using ASP.NET Maker, you can instantly create websites that allow users to view, edit, search, add and delete records. ASP.NET Maker is designed for high flexibility, numerous options enable you to generate web applications that best suits your needs. The generated codes are clean, straightforward and easy-to-customize. ASP.NET Maker can save you tons of time and is suitable for both beginners and experienced developers alike.
