

ASP Script to track clicks, count downloads, hide URLs

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

ASP script that can be used to track ad campaign URLs, measure effectiveness of each campaign, monitor clicks on various links or simply hide your affiliate links to protect your commissions from thieves. Real-time stats are shown such as referring URL, IP stamp, time of visit, etc. Script maintains simple text database. Free demo is available on our website.
