ASP Slideshow

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Just drop any combination of image, plain text, and/or sound files in the same directory the ASP script is in. Let ASP do the hard work of creating the presentation. Under IE with scripting enabled, the slide show will auto-advance. Otherwise (or on other browsers and operating systems) the slide show will be manually advanced.
