

@1 Categorized Headlines Publisher PRO (with category icons)

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

News posting script with add, edit and delete features that can embed an image (with image upload) in the body of the detailed news. It supports category icons where you can upload your own icons and delete old ones. Optionally, a "NEW" image icon can be placed next to the headline if the news is less than X days old. You may set the X value at an admin interface, or disable this feature. The PRO Version supports "maximum news" and "news category" limiters to limit the category or number of news (or both) to be displayed.
