ATN Mall is a responsive multi-stores online mall software. It allows you to create easily a multi-vendors online mall website on which the vendors can sign up, create automatically their stores and start selling online. The software comes packed with plenty of features for the administrator and vendors, to manage the stores, add products, create coupon codes for discounts, set the taxes, shipping zones and costs, product reviews use customer loyalty program and many others. All the settings like categories, locations, currency displayed on the website, time zone, payment settings etc. can be easily changed from the admin panel in order to customize the script for your website and country and project requirements. ATN Mall is provided with the full not encrypted source codes, free installation and free technical support.
