Authelo is a PHP based website password protection solution available for a low \$29. - Rapidly manage your customers' accounts. - Avoid writing .htaccess files by hand. - Never reset another password. - Enjoy a user-interface that doesn't suck! Authelo is compatible with most UNIX based web servers. We promise that Authelo has a much more intuitive, easy to use interface than our competitors. This means you will get more done in less time, and with less chance of mistakes. It's available for US\$29 for a single website license, and we offer a 30-day 100% satisfaction guarantee. Why not check out the demo now?
