

Authorize.net Connect Script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Process credit card payments on your web site. This script provides an easy method to connect to the Authorize.net payment gateway using the AIM method, the preferred method of integration. Using this script yields very fast and secure transaction results from Authorize.net, a seamless experience for the end user, and very easy integration with your web site. Includes built-in transaction results display, transaction error display with explanation and more. This script is not a complete form processing system, but offers the AIM connection method with implementation ease. Can be integrated with any web site payment form or shopping cart program. Requires Net::SSLeay. Contact with questions.
