Autoresponder + Mailing List Manager (AMLM) Pro

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Automatic sequential email autoresponder with powerful mailing list manager. When your visitor sends an email to the autoresponder or fills up a subscribe HTML form, the script will automatically send out a reply, add the sender to the mailing list and followup will begin at predetermined intervals. You can easily manage the mailing list entries using the mailing list manager. Features include: multiple autoresponders, multiple mailing lists, multiple domains, personalized followup messages, scheduled mailings, double opt-in, email duplication check, unsubscribe link, link tracking system, unlimited custom fields, multiple file attachments, powerful mySQL database (tested with 1 million subscribers), easy-to-use interface, plus much more. Easy to setup perl cgi scripts even for the newbies. You can install it, forget it and it will run automatically trouble-free for years. Much better than commercial autoresponder- No monthly fee, unlimited usage and full control of your database.
