

# AviaSlider - jQuery Slideshow

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

It comes with an image preloader so the slider starts when images are ready to be shown. No clumsy animations with half loaded images. The slider also already comes with the famous prettyPhoto lightbox, but you are of course free to use any other.
