MASTER RESELL RIGHTS FOR THIS SCRIPT AND OVER 100 MORE INCLUDED IN THE PRICE!!!

Basically this is a clone of an adult check age verification system. Probably even better than their software actually. Mysql database backend and authorize.net payment gateways allow you to run your own Age Verification System. Built in 2 level affiliate structure allows you to payout commissions to both webmasters that refer members and webmasters that refer other webmasters. Search the entire AVS database by keywords or browse by category. Generates signup messages, realtime cc processing. Webmaster lounge lets them see their commissions in realtime or tweak their sites. Admin interface gives you overall control to approve or delete sites. You can also revoke commissions to webmasters in event of fraud or chargeback.
