Axml Editor is an online WYSIWYG html editor using IE MSHTML editing platform. This editor has advanced features that let you create html pages in minutes. If you want to build a newsletter or a web-publishing content website, this is the perfect choice for you. This editor has an easy-to-use image-upload enabled panel where you can browse or upload images in seconds. It also provides the necessary options like creating tables, links, font colors, background or foreground color, symbols, formating, absolute - positioning etc.
