AXS Visitor Tracking System

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

AXS logs visits to your website in real time. It provides up-to-the-minute graphs on visitor usage of specific types of browsers, general classes of web browsers, and operating systems. Shows most popular local files; frequency of links used to exit your site; most common links leading to your site, including search engine links showing search terms and ranking. In addition to graphs, it shows a request-by-request log of all visits, grouped by time or by visitor.
