

Background Images SlideShow

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This unusual script runs an image slideshow in the *background* of the page, underneath the page content. In the first method, the images are discretely positionable in the page space, just like a regular slideshow. In the second method, the slideshow runs with full page-space presentation.
