

# Bar Graph

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This script allows you to create a bar graph table of the data given to it. It prints the total-count variable at the top of the form. It will chart out the values given in the stats-array definition statement.
