Email	{value_email}

BestBuy-Magento Integration connects the Magento store with BestBuy by synchronizing the inventory, price, and other product details for the product creation and its management between the Magento store and the BestBuy website. Easy Debug: Easy debug process for hassle free products upload on the BestBuy website. Profile Based Product Upload: This helps Admin to upload and manage the products based on profile. Inventory: Real time synchronization of product inventory and product price. Crons: Cron job automates the process for Inventory, Price and Order management. Order: Auto acknowledges & imports orders. Manage Orders: It allows admin to import orders from the BestBuy website to convert it into regular Magento Orders and Shipments.
