Email	{value_email}

Seen all the nice little Blog Images popping up all over the palce? well now you can have counters that look like them as well ! Midnight Fun Blog Image Counters are counter systems written in PHP and GD.

Features * Easy to install. * No MYSQL database needed as it is a flat file database system. * valid XHTML 1.0 and CSS. * Blog image visit counter. * Blog image users online. * Blog image page loadtime. * So thats all 3 scripts in one! Requirements * Apache webserver that supports PHP. * PHP 5.0.5 or higher but it should work pre PHP 5. * GD2 support (GD1 support may work, but not tested) for PNG files. You will like our Blog Image Counters so get trying them out on your own site! Oh yes did we say they are FREE! So what are you waiting for go and download them today!
