

BSCOutline

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A highly customizable tree view control for use in Web pages, similar to that used by Windows File Manager or Explorer. Features: unlimited customizable folder icons in both open and closed states; customizable document icons; customizable background color or image; customizable font; a simple data file in ASCII format with comments for legibility; a customizable target frame for documents; a customisable highlight showing the last viewed document; mouse movement display of the destination URL; options to turn off icons and tree lines; and a partial population facility to speed up very large data structures. Javascript interaction.
